Web Usability 2 0 Lusabilit

accessibility, usability, WCAG 2.0, Web. This is a story about web page headings and sub-headings: A story that tries to look beyond the absurd distinctions that are sometimes made about the usability and accessibility of web content, to ask who needs headings and why. Changes in web-user behaviour. November 20, 2012 by Roger Hudson

Web Usability - LudoTIC

Accessibility and Usability. Accessibility primarily focuses on people with disabilities. Many accessibility requirements improve usability for everyone, especially in limiting situations. For example, providing sufficient contrast benefits people using the web on a mobile device in bright sunlight or in a dark room.

Web 2.0 Usability - slideshare.net

Unlike some older technologies (notably, Flash and PDF), Web 2.0 ideas are not inherently bad for users. They can be highly effective; we sometimes see examples of usability-enhancing Web 2.0 designs in our studies. But it's more common to find Web 2.0 ideas that either hurt users or simply don't matter to users' core needs.
