Race and Ethnicity Defined - CliffsNotes

The Confusing World of Race and Ethnicity. When it comes to race and ethnicity, you definitely can't draw a line in the sand between these two terms. The line between your race and your ethnicity can definitely become blurred. This is largely due to the fact that race and ethnicity are social constructs rather than based on any science.

race | Definition, Ideologies, Constructions, & Facts ...

Stated simply, race is the word used to describe the physical characteristics of a person. These characteristics can include everything from skin color to eye color and facial structure to hair color. This term is physiological in nature and refers to distinct populations within the larger species.

RACE | meaning in the Cambridge English Dictionary

Both race, which describes physical characteristics, and ethnicity, which encompasses cultural traditions such as language and religion, play pivotal and socially significant roles in people's lives.

other people differently because of them. For instance, while differences and similarities in eye color have not been treated as socially significant, differences and similarities in skin color have.

RACE - The Power of an Illusion . What Is Race | PBS

The term "Caucasian race" was coined in 1785 by Christoph Meiners, a German philosopher. Meiners recognized two races — the Caucasian or beautiful, and the Mongolian or ugly. According to his classification, the Caucasian race encompassed the native populations of Europe, the aboriginal inhabitants of West Asia, the autochthones of Northern Africa, and Indians.

Race to the Bottom Definition

Critical race theory (CRT), the view that the law and legal institutions are inherently racist and that race itself, instead of being biologically grounded and natural, is a socially constructed concept that is used by white people to further their economic and political interests at the expense of people of colour. According to critical race theory (CRT), racial inequality emerges from the ...

Caucasian vs. White - Difference and Comparison | Diffen

Rapid amplification of cDNA ends (RACE) is a technique used in molecular biology to obtain the full length sequence of an RNA transcript found within a cell. RACE results in the production of a cDNA copy of the RNA sequence of interest, produced through reverse transcription, followed by PCR amplification of the cDNA copies (see RT-PCR).The amplified cDNA copies are then sequenced and, if long ...

Examples of Race and Ethnicity

A race is something that's much harder to pin down. Racial groups tend to be divided by similar physical characteristics like skin color, head shape, and so on. Unlike ethnicity, which is tied to a particular people or place, race is imprecise. And, to be frank, there isn't any real scientific basis for dividing people into races.
