we can't. But I've always felt that there is much more to existence.

What We Believe Becomes Who We Are - Inspirational Words ...
Authority can be vested in people and institutions, parents, religious or social leaders, but it is also projected by actions, which are said to speak louder than words. Sometimes, people collectively come to believe things that are palpably and laughably untrue simply because they are all following one another.

What I Believe But Cannot Prove » Michael Shermer

Thus, it seems reasonable to me that if we are even indirectly responsible for our belief acquisition, we can then be held responsible, to a degree (to the extent of which I am not certain), for what we believe. If my previous reasoning can be attributed as true of indirect doxastic voluntarism, then my argument is as follows:

1.

Astrology. Without any real proof that the way the planets and stars are aligned will actually shape a person, we believe that if we are born under a certain zodiac sign we are bound to a particular disposition and set of skills. Daily horoscopes and astrological charts have become a guiding tool for many people,...

What We Believe Matters-Not Just to You - Christian ...

Confirmation Bias. Once we have a belief, we tend to cling to it, even when it's untrue. The confirmation bias is the tendency to seek out information that supports what we already believe. We do this in two important ways. First, we tend to surround ourselves with messages that confirm our pre-existing opinions.

We cannot choose what we believe - General Discussion ...

What I Believe But Cannot Prove. Our knowledge of nature remains provisional because we can never know if we have final Truth. Because science is a human activity and nature is complex and dynamic, fuzzy logic and fractional probabilities best describe both nature and our approximate understanding of it.

What We Believe But Cannot Prove - Wikipedia

More than one hundred of the world's leading thinkers write about things they believe in, despite the absence of concrete proof. Scientific theory, more often than not, is born of bold assumption, disparate bits of unconnected evidence, and educated leaps of faith.

Why Do We Believe Things? | Winton

Yet, somehow we believe they're out there. Overview of Size So we have postulated that it is reasonable to assume that there are things that are smaller and larger than things we can actually measure. As our measuring tools and methods get better, we continually discover more pieces of the universe that we didn't know existed.

Is It Logical To Believe In Something We Can't See

We cannot choose what we believe but we can make false claims about our beliefs. I can claim to be a Christian. I can do what many people do, walk into a church once, say the sinner's prayer, announce to the people in the church that I believe in God, and then walk out the door to carry on my life as if there was no God.
