Will Africa Feed China By

Is China building a new empire in rural Africa? Over the past decade, China's meteoric rise on the continent has raised a drumbeat of alarm. China has 9 percent of the world's arable land, 6 percent of the world's population, and 20 percent of its people. Africa's savannahs and river basins host the planet's largest expanses of underutilized land and water.

Will Africa Feed China? - Deborah Brautigam - Google Books
