## **Art Appreciation Ch. 9 Flashcards | Quizlet**

An artist creates an image with paint or ink on a smooth plate (usually plexiglass, mylar or metal), and transfers the image to paper on a printmaking press, or manually with pressure & rubbing. By pressing the plate & paper together with the pigments sandwiched in between, the artist creates a texture not possible when painting directly on paper.

## **Displate - metal posters | Make Your Home Awesome**

Mezzotint. To create a mezzotint, the surface of a copper printing plate is roughened evenly all over with the aid of a tool known as a rocker; the image is then formed by smoothing the surface with a tool known as a burnisher. When inked, the roughened areas of the plate will hold more ink and print more darkly,...

## **Home - The Crazy Plate Lady**

Art Appreciation Ch. 9. The metal plate is covered with a liquid, acid-resistant ground consisting of wax or resin. When ground has hardened, image is drawn upon it with a fine needle. When drawing is completed, matrix is slipped into an acid bath, which begins to eat away the exposed areas of the plate.

## **Art printmaking quiz | Visual Arts Flashcards | Quizlet**

License Plate Art. License plates are attached to every vehicle for recognition and for security. For most cars, three letters and three numbers comprise the code. The background design of the plate can also vary depending on the state of origin. Custom plates are possible directly from the vehicle registry.
