The first thing you need to check is whether your orchid is an epiphyte or a terrestrial. If it's an epiphyte, then you should know that these orchids are often found growing on trees, so they don't need any potting mix. If your orchid is a terrestrial then you'll want to check the guide above to figure out what soil you need.

Mist orchids daily if the humidity level in your home is below 40%. Orchids do best in environments with 40-60% humidity. Pick up a hygrometer from a gardening center or superstore and use it to test the humidity in your home. If the humidity is less than 40%, use a spray bottle with a fine mist setting to lightly mist the orchids and their potting medium once
